

Signing on to a Zoom Tutoring Session by a Student

It is best to sign into a Zoom Tutoring Session using a device that also has access to your child's Google Classroom and other relevant school accounts.

Chromebook

It is best to be logged into your child's school Google account so they can easily share their work with their tutor.*

1. When your child is logged into their Chromebook they can access Zoom via the Zoom.us website or their Clever Account.
2. Once on the Zoom website click on the *Join a Meeting Link* at the top of the homepage.
3. Now you will be prompted to enter the Meeting ID that was sent to you in the HCT Confirmation Email.
4. After entering the Meeting ID and clicking the *Join* button, follow the prompts to enter the passcode and join the meeting.

*Chromebooks signed into school provided Google accounts **must** log in via the Meeting ID and Passcode method.

Other Devices

If not using a Chromebook, you can log into a tutoring session via the Zoom link provided or the Meeting ID/Passcode method outlined above.

iPad or Cellphone

- download the free Zoom app to enable screen sharing
- download all relevant school apps on the tutoring device (ie. Google Classroom and Clever)

PC or Mac Computer

- make sure your child is able to access and log into their school websites while logged into Zoom.
